TREACHER'S GLENLIVET WHISKY.

IMPORTANT CAUTION !

WHEREAS for a period extending over many years there has been uninterruptedly sold in the Indian Market a certain blend of Scotch Whisky known to the trade and the public as TREACHER'S GLENLIVET WHISKY, each bottle of which bears near the front shoulder a characteristic heart-shaped label with a caution label on the reverse and a Phœnix trade-mark on both labels, as well as on the cork and the metallic capsule covering the cork, and which Whisky from its high state of purity, rich soft mellowness, and intrinsic worth has met with such general appreciation, and so fully established itself in public favour as to be now familarly known as "Glenlivet," "Treacher's Glenlivet," "Glenlivet Whisky," "Treacher's Whisky," "Treacher's Glenlivet Whisky" and "Heart-Labelled Whisky," the Public are hereby warned and cautioned against accepting as TREACHER'S GLENLIVET WHISKY any brand failing to correspond with the aforenoted particulars.

TREACHER & Co., LIMITED,
SOLE PROPRIETORS OF
TREACHER'S GLENLIVET WHISKY.

COMMERCIAL INTELLIGENCE

MONDAY EVENING, JUNE 5.

SOME people who have sales of produce for shipment before the monsoon yet to cover, express a decided opinion that it has not yet broken, and that the rains we have had only amount to a local storm. They may be right, as what does and what does not constitute the monsoon is a matter on which few people seem to hold the same opinion, but by whatever name it may be called, heavy rain set in on the 2nd instant, and continued with little intermission until this morning, upwards of 20 inches, or a fourth of a full average monsoon fall, having been registered. Coming somewhat unexpectedly, a large amount of Cotton and other produce has been damaged, and in the interval business has narrowed down to a very limited compass. Exports naturally have been almost at a standstill, and this has reacted on Freights which are down to 25s. by Canal and 40s. by iron sailing ship without attracting much cargo. Judging from previous experience, however, we shall now probably have a considerable interval of fine weather during which shipping operations to some extent will be resumed, and although the season is unquestionably over, and there is little likelihood of anything approaching activity for some months, low freights and the necessity of covering previous engagements will take forward a certain amount of business. Imports continue quiet, and are likely to remain so until later on in the rains. Money is easy, Government Paper and Shares firm.

MONEY.—The published statement of the Bank of Bombay issued to-day for the week ending on Saturday shows the following changes :—

Public Deposits at Head Office	Increase	Rs.	1,54,636
Do. do. Branches	"	"	16,632
Other Deposits	Decrease	"	4,87,001
Government Securities	"	"	50,742
Loans	"	"	20,37,977
Bills Discounted	Increase	"	10,05,136
Cash with Correspondents	"	"	98,144
Cash and Currency Notes	"	"	6,79,744

These movements are not indicative of much as regards amount, but the tendency is evidently still towards greater ease. A reduction of one per cent. all round was made in the Bank's rates on Wednesday last bringing the minimum down to 6 per cent., but outside accommodation is obtainable at 1¼ per cent. less with every appearance of even a lower level being available in the course of another week or two.

EXCHANGE.—The fluctuations in Sterling since last mail-day have been extremely slight, and with the exception of a decline of 1-32d. in Bank paper and ¼ centime in francs, our quotations to-day are the same as this day week. The day after last mail left a decidedly easier feeling was apparent, and a reduction of 1-32d. was established all round. On Thursday the tone was still quiet, notwithstanding Council drafts were again limited to 1s. 8 1-16d., but on Friday, owing to Silver coming rather higher from London, the Banks raised their buying rates to their previous level, although making no alteration in their quotations for drawing. Since then Silver has further advanced 3-16d., being now quoted at 52 7-16d., and advices from Calcutta have been steady, but no change has been made here, and we quote at the close to-day :—Bank Bills on demand 1s. 8 3-32d., Telegraphic 1s. 8 1-16d., 4 months' sight 1s. 8 9-32d. ; Credits, 3 months' sight 1s. 8 11-32d. ; Documents, 3 months' sight 1s. 8d. ; Francs, 3 months' sight Rcs. 2·14 per rupee.

The surroundings of the market have not altered materially since last mail left, but if at all, it has been in favour of greater ease. It is very evident that a strong effort is being made by the manipulators of the Council drawings to keep the Rupee above 1s. 8d., but it is equally evident from the limited demand at 1s. 8 1-16d. that the natural level is below that figure. If the present course is persisted in, therefore, the result will be a considerable accumulation of unsold drafts, whilst in the meantime the tendency of things is likely to be downward, as to all present appearance any activity in business will be visible in imports before exports.

GOVERNMENT SECURITIES.—The market has ruled very quiet throughout, and up to Saturday last a declining tendency was observable, Fours touching Rs. 101¾. Latterly more firmness has been apparent and the closing rate is Rs. 101¾. Fours-and-a-half have remained unmoved during the week at Rs. 108¾.

The Egyptian question is undoubtedly the adverse feature in the immediate future of paper. So long as it remains in its present unsettled condition speculators will be slow to operate, but the market otherwise is firm and might be expected to improve.

SHARES.—As a general rule the market has been very steady, and under the influence of cheap money the tendency is unquestionably towards higher values. *Banks* have undergone no movement of importance, Bank of Bombays being still at Rs. 790, Agras Rs. 130, Nationals Rs. 96. *Press* Companies are particularly strong, the largeness of the Cotton Crop promising a good result for almost all concerned. Our quotations show an improvement of in most cases Rs. 20 to Rs. 30 per share, and in some instances even more. *Spinning and Weaving Mill* shares have been in decidedly more request owing to the improved demand apparent for local Yarns, and our list of quotations exhibits a distinct general improvement of from two to five per cent.

PIECE-GOODS.—The general position of the market is perhaps a shade more hopeful than it was, inasmuch as the opening of the monsoon has been to some extent favourable, but until buyers have something more definite to go upon it is scarcely to be expected that any buying of importance will be manifested, especially as supplies are still fairly liberal all round. No change has taken place in prices worthy of note, and the clearances for the week may be estimated at about 1,400 packages.

YARNS.—In English makes there has been a comparatively large business doing at an advance of ¼ anna per lb., and with only moderate stocks the market is firm. *Local* yarns have also been request at about a similar improvement, and something like 2,000 bales have changed hands.

METALS.—*Copper* is dull with only a limited inquiry and prices are quite As. 8 per cwt. lower. To *Yellow Metal* the same remarks apply, notwithstanding only moderate stocks.

COALS.—There is nothing in the shape of fresh business doing, and prices are quite nominal at about Rs. 14-8 for Davison's and Rs. 15½ for Cardiff, alongside. Stocks are now down to a very low figure, and present reduced rates of freight homeward are not likely to admit of increased supplies.

COTTON.—So far as fresh business is concerned there has really been nothing of any importance done since last mail left. May shipments were then about covered and two days afterwards the monsoon set in, which has practically put a stop to all buying for exports. Prices, if anything, have hardened up under the influence of steady advices from Liverpool, especially for reliable selections, but of these there is now very little left, the bulk of existing stocks being not only doubtful as to quality originally, but badly damaged by the monsoon setting in at least ten days to a fortnight before it was generally expected.

Supplies are still comparatively large, the following being the receipts to date :—

	1882.	1881.	1880.
For 11 days	94,010	69,004	83,319
Since 1st September	1,600,325	932,838	988,357
Since 1st January	1,350,046	807,877	870,363

The *Clearances for Sea* since 1st January have been 1,147,777 bales as against 651,455 bales for the same period last year.

The following are to-day's quotations for full-pressed Cotton with the equivalents in sterling, cost, and freight to Liverpool, *via* Canal, without commission :—

	Per Candy.	Per lb. C. & F.
Fine Omra (Nominal)	Rs. 205	5 9 32d.
Good do.	" 196	5 1/16d.
F.G.F. do.	" 190	4 29/32d.
G.F. do.	" 182	4 23/32d.
Fine Dhollera (Nominal)	" 207	5 5/16d.
Good do.	" 195	5 1/32d.
F.G.F. do.	" 188	4d.
G.F. do.	" 180	4 21/32d.
Good Ginned Dharwar	" 238	5 11/32d.
Good Ginned Broach (Nominal)	" 228	5 27/32d.
Good Westerns	" 183	4d.
F.G.F. do.	" 178	4d.

WHEAT.—Arrivals have been fairly liberal, and prices under the influence of home advices have evinced a downward tendency, which has only been checked by the depressed state of homeward freights. We now quote :—No. 1 White Rs. 33, No. 2 Rs. 31 to Rs. 32, and Soft Red Rs. 30 to Rs. 30½ per candy.

SEEDS.—*Linseed* is comparatively firm at Rs. 5-7 to Rs. 5-7½ per cwt. Arrivals are free, but will fall off as the rains interrupt traffic up-country. *Rapeseed* is not in large supply, and prices are steady at about Rs. 6 per cwt. for Guzerat.

All MONEY ORDERS, CHEQUES, and other Remittances sent to this office should be made payable to the Proprietor of the *Bombay Gazette.*

The Bombay Gazette

TUESDAY, JUNE 6, 1882.

IT is evident from Lord Dufferin's telegram to the Foreign Office that the proposed Conference has completely fallen through. It has followed the ultimatum into the limbo of abortive contrivances for the solution of the Egyptian difficulty. Meanwhile Arabi Pasha rules at Cairo—not, in our view, a misfortune by any means, if only the British Government had frankly accepted the as the outcome of a genuine Egypt

REAR ADMIRAL GORE-JONES having completed his five years' service in command of the East Indian Station, and made over charge to Admiral Sir William Hewett, his successor, goes home by the mail-steamer Rohilla, which leaves Bombay to-day.

A PRIVATE of H. M.'s 26th Regiment N. I., stationed at Ahmedabad, shot himself in the lines at about 2 o'clock on Friday morning last. His remains were burned later in the forenoon. Rs. 117 were found in his room. A correspondent informs us that "it is believed by the natives that a centipede crept into his head through the ear, and drove him mad."

IT is rumoured that the 26th Regiment N. I. will go from Ahmedabad to Baroda in the room of the 11th Regiment N. I., to be disbanded on the 1st proximo.

A GENERAL COURT-MARTIAL assembled at Bolarum on the 2nd May to try Subadar Kalleedeen Tewaree, of the 3rd Regiment of Infantry, Hyderabad Contingent, on a charge of behaving in a manner unbecoming the position and character of an officer, in having, at Bolarum, on the 9th October, 1881, offered a bribe to Colonel Richard Kirwan Macquoid, commanding the regiment, with the view of obtaining from Colonel Macquoid a favourable reply to a request he, Subadar Kalleedeen Tewaree, was about to make, by dropping a massive gold ring into the coat pocket of Colonel Macquoid. The court found that the prisoner was not guilty of the charge.

MR. F. B. PEACOCK, Commissioner, Presidency Division (Calcutta), has been offered, and has accepted, the appointment lately vacated by the Hon'ble Mr. Cockerell, of Secretary to the Bengal Government.

THE Indian and Oriental Electrical Storage and Works Company of London offer a premium of 50 guineas for the best and 25 guineas for the second best design for an electric tram-car for India. The car is to be designed to seat 30 persons and to carry 50 cells under the seats, each cell to be 10" by 8" by 4½" in size. We hope the company will obtain the designs they seek; for then, perhaps, tram-cars propelled by electricity may soon glide along our streets.

THE weather was tolerably warm at Simla during last week. The thermometer stood at 84° in the shade for four days.

MR. W. DALLAS, of the London Meteorological Office, who has been appointed Superintendent of the office of the Meteorological Reporter to the Government of India, is expected to reach India by the middle of next month, and to join his appointment at Simla.

WE have received a volume of the Natural Science series of handbooks issued by the Department of Public Instruction, Bombay, on the *First Principles of Chemistry*. Mr. Samuel Cooke, of the College of Science, Poona, is the author. The little book is well adapted for its purpose, which is to put students and the general public in possession of the fundamental principles of chemistry. The style is very clear and simple. This handbook will doubtless prove as popular and useful as *The First Principles of Astronomy*, by the same author, issued two years ago by the Department.

AT the Railway Conference, which is to be held at Simla in August, the Scinde, Punjab, and Delhi Railway will be represented by Mr. David Ross, C.I.E., Traffic Manager, and Mr. Lightfoot, Auditor.

WITHIN two days of each other, but with a difference of 12 years' service, two officers of the Indian Army come into their off-reckonings this week: Lieutenant-Colonel W. E. Broughton, of the Bengal Infantry, on the 5th instant, with 26 years' service, and Colonel Sir Charles C. Johnston, K.C.B., R.S.C., on the 7th instant, with 38 years; the former being 44½ years of age, whilst the latter has lived longer by ten years. Colonel Sir C. C. Johnston is in receipt of a good-service pension, which was granted him in February last year, whilst on the 24th May, the same year, he was made a K. C. B.

THE Lahore paper says:—There are fresh "scares" at Peshawur. It is said that Kumal is on the prowl, with a following, dressed as policemen; and that the civil authorities have been warned from the district. The sentries of the 35th N. I. have again been practising at an orderly officer; but, fortunately, several rounds fired missed their mark.

THE *Englishman* understands that no steps will be taken to apprehend Surgeon D. O'Sullivan, who quietly left Calcutta, as it is believed, in the s. s. Dacca. Doctor O'Sullivan will probably be allowed to proceed to England, and Her Majesty will be advised to dispense with his services for being absent without leave.

THE N.-W. Provinces crop and weather report for the week ended on the 31st May states:—Slight rain has fallen in two districts. The heat is intense. Wind variable, but chiefly easterly, with occasional storms. Prices are rising slightly. Cholera is reported from Benares, Gorakhpur, Lucknow, Rae Bareli, and Partabgarh, and is increasing in Allahabad, chiefly north of the Ganges. There is some small-pox in five districts. Cattle-disease continues in Kumaun, Moradabad, and Jhansi.

IT is rumoured in Calcutta that Mr. W. H. Ryland, Officiating Superintendent of Stamps and Stationery, is to be deputed to England to select and purchase stamping machines with recent improvements for the Stamp Office in Calcutta, and that he is to obtain a few months' leave for the purpose. But the question has not yet been definitely settled as to whether an officer is to be deputed from India, or whether the store-keeper of the India Office is to be entrusted with the special duty of selecting the machines and sending them out to this country.

THE Deputy Commissioner of Sylhet, in a report on the manufactures in his district, gives the following particulars regarding weaving and the manufacture of cotton thread, which, according to the census of 1872, was the occupation of 18,000 of the inhabitants. The manufacture, he says, is now fallin t off, owing to the extensive imports of cloth from England, and the establishment of machinery in this country. The Manchester piece-goods are fast usurping the place of country-made articles, and many weavers have given up the loom and taken to other professions. Fine cloths after the Dacca patterns, and with thread imported from that celebrated city of muslins, are still made at Lashkarpore, and some coarse cloth is also manufactured in different parts of the district, which, though dearer, is more durable than the Manchester cloth. A thick description of cloth for winter and for sleeping in is also woven, besides screens and table-cloths from white or coloured country thread. The Munnipooris produce most lovely dyes for their cloths, but the production of these is guarded with the strictest secrecy, so that that no Bengalee has hitherto succeeded in producing them. In Munnipore itself the finer kinds of silks are manufactured by women of respectability and position, and the coarser kinds by professional weavers, but the total out-turn is small. In this district weaving and embroidering are still held in very high estimation, and Assamese mothers instruct their daughters in these arts at a very tender age. The silk industry will, in all probability, continue to live, and might be largely extended, but the total extinction of cotton manufactures is said to be only a question of time, owing to the yearly increasing imports of English goods.

* The *Englishman*, which has a tender corner in its heart for wealthy zemindars, cannot abide the Babu. "A property qualification will, it is to be hoped, exclude from these boards the shrieking brotherhood who have clamoured so long and loudly for local self-government. Once admit the semi-educated, penniless Babu to a seat on the board, and we shall have small centres of sedition established in every thannah. They are men who have nothing to lose and everything to gain. They would turn committees from being what they ought to be, working bodies, into luminare debating societies. They would bring them to the level of Irish Poor Law Boards, where the case of the poor is made subordinate to the discussion of home and foreign politics. They have clamoured for and have obtained local self-government. We have all along questioned the disinterestedness of their motives; but now that a government by the people has been or is about to be introduced, we should not allow the noisy and clamorous Babu to reap the benefit of the revolution that has been brought about, and above all things we should not allow him to use the power now entrusted to the people as an engine for his own aggrandisement, and as an instrument for the spread of sedition against the State, which he is ever ready to preach, and from the consequences of which he would gladly allow his dupes to be the sufferers. As we have said above, however, a property qualification will eliminate this class from the proposed boards, and we hope that the qualification will be a substantial one."

THE SOUTH-WEST MONSOON.

THERE is a break in the B. B. and C. I. line in Dhanuswamp, and traffic was for a time yesterday stopped beyond Boisur on the one side and Dhanu on the other. About two miles of the line in the swamp has been damaged. Some of the passengers, who were unable to continue their journey, are somewhat indignant at the delay, and complain of a want of assistance. They addressed the Agent as follows:—

"We the undersigned passengers in the passenger and mail up trains to Bombay beg to bring to your notice the want of organisation and care for the passengers and their luggage which has characterised the breakdown on your line to-day between Boisur and Baighur stations. We arrived at the breakdown about 1 o'clock, and found that no arrangements were made for the transfer of the passengers' luggage. We had to walk fully one mile in the pouring rain, and had to carry our own things. On arriving at the large bridge, we found no arrangements had been made for women, children, and infirm people to cross; there was not one plank on the bridge by which it could be crossed safely, though we had seen several loose planks on the broken part of the road close by. After a long time we got a plank over the bridge, and the engine driver of the Cuddapah train helped to get the passengers over. One Parsee guard of the up train was also of much assistance. After waiting fully one hour, a number of passengers impressed fifty coolies belonging to the permanent way, after a protest from the sub-inspector in charge of these men that this was contrary to orders. In this way the mails were got over, and some of the passengers' luggage; otherwise we might have stayed there till night. Besides those mentioned, none of the company's staff would do anything; everybody was afraid of overstepping his duty, and as a consequence nothing was done. We think that we ought to complain that though there must have been ample notice of the accident, none of the higher officials were on the spot to direct the necessary arrangements.—SIGNED BY EIGHT FIRST-CLASS PASSENGERS."

They received the following reply from Mr. Wood, the Agent:—"I regret exceedingly the inconvenience, delay, and discomfort to which the mishap you relate exposed you and other passengers, and the absence of assistance that you complain of shall be carefully inquired into. You were, unfortunately, passengers by the first train that reached the scene of the break from the north after its occurrence, and the District Superintendent was, I understand, at Broach at the time. The spot where the break occurred is an unfrequented part of the line, at which supplies of labour and material are not usually obtainable on short notice. Steps were, however, promptly taken by the company's engineering staff to send down both and to repair the line."

The small bridge called the Capsee bridge was covered with water. The water which poured down from the hills will, no doubt, quickly subside, and it is hoped that traffic will not be delayed for more than a day or so. Mr. Duxbury, the Traffic Manager, travelled up the line on Sunday. He telegraphs that the booking of passengers can be carried on without interruption. The storm caused but trifling damage to the G. I. P. Railway. There was a small slip on the Ghauts, but it did not materially retard traffic. Some goods sheds at Waree-bunder were blown down, and this caused some inconvenience.

The Currency Offices, Bombay, appear to have suffered very severely by the storm of Friday night. Two windows were torn bodily from their posts, and hurled into Ash-lane. More than 40 panes of plate-glass, a quarter of an inch thick, and about 20 smaller ones, were broken. A window of one of the front rooms was literally burst in, and the apartment was deluged, the furniture it contained being ruined. The house, which has exceptionally strong foundations, at one time trembled as though shaken by an earthquake. The toddy palms in Mahim and Bandora suffered severely, and great numbers of them are now lying prone.

On Saturday morning the rains set in heavily at Hyderabad (Deckan).

The Madras mail-train which arrived in Bombay yesterday was delayed for a couple of hours by a great storm of wind and rain between Raichore and Sholapore. Rain has been falling heavily in the Neilgheris.

The Konkan is quite flooded, the paddy-fields being all covered with water. In the Dekkan the ryots were quite unprepared for the sudden setting in of the rains. The labourers are masters of the situation, and demand, and what is more obtain, 12 annas, and even a rupee, a day for assisting in ploughing and getting the seed into the ground.

The Commissioner of Police has received a report from the water police to the effect that prow No. 8574, Tindal Govind Esseo, laden with 29 tons of coal, was swamped alongside a steamer on Thursday. Tindal Gunoo Ramjee reported that his prow got adrift from the Mandvi-bunder on Saturday. Several fishing craft got adrift; one was found on the rocks at Colaba, and another near Oyster Rock. Five native craft, laden with rice and charcoal, have been lost on the way from Kurja to Bombay. The boats were not recovered, but no lives appear to have been lost. Prow 6102, Tindal Govind Mahadoo, was capsized off Mazagon on Saturday, but was picked up by a steam launch and taken to Carnac-bunder.

The Manager of the Bombay Saw Mills reports that 28 logs of timber got adrift and were washed out of the timber basin on Friday night.

About a lakh of rupees worth of cotton is stated to have been damaged on the Colaba Green by the recent heavy rains. Large quantities of this wet cotton is now being packed in godowns in several parts of the town. If this cotton is not properly ventilated it will take fire.

In Bombay yesterday there was a break lasting some hours. The sun shone, though the clouds were still thick and threatening. In the afternoon, about 5 o'clock, the rain recommenced, and in the evening there was a heavy thunderstorm lasting several hours.

At midnight the rain had ceased and the sky became clearer, but the aspect remained threatening.

TELEGRAPHIC WEATHER REPORTS.

We have received the following copies of telegrams from the Meteorological Reporter to the Government of India, Simla:—

JUNE 3.—With local exceptions at Agra and Bareilly, the barometer continues falling in the N. W. Provinces, Rajputana, and Central India. It is also falling again in the Punjab and the Indus Valley, but remains steady in the Central Provinces and Berar. From Bengal and all places eastward no reports have been received. In Southern India there has been a very slight fall. Except near the hills, the winds are west or north-west in the Punjab and the Gangetic plain and Northern Rajputana; west in the Gujerat, Central India, and the Central Provinces; and in the peninsula southerly, chiefly south-west. Belgaum reports the monsoon apparently setting in, and Bombay, a severe gale which looks cyclonic and may be the vanguard of the monsoon. Goa had four inches of rain in twodays; Benares, Bombay, Belgaum, Mangalore, Chitaldroog, half to one inch; Indore, Jullunder, Seoni, Dhulia, and Salem small quantities, above one tenth.

JUNE 4.—No reports were received from Bombay, south of Surat, nor from any part of Southern India beyond Masulipatam. It is uncertain, therefore, whether the monsoon has set in at Bombay. The barometer continues falling everywhere, especially in Sind, Rajputana, Gujerat, and the Western States of Central India. Indore reports dark gloomy weather, like the approach of the monsoon. In Bengal the weather is cloudy and showery at some stations, but at Saugor Island the weather is fine, and at Gopalpore the sea is only slightly disturbed. Northerly winds have almost disappeared except in Behar and locally elsewhere. In Central and Western India the winds are between west and south. Rain, including that of previous days, at Dhubri above five inches; Nowgong above three; Salem above two; Sibsagar, Silchar, Chittagong, Saugor Island, Dinagepore, and Furneah one to two; Dacca, Calcutta, and Calicut half to one inch; Sirsa, Mozufferpore, Thayetmyo, and Rangoon, small quantities, above one tenth. Bombay reports continuous rain, twelve inches.

JUNE 5.—Reports to-day are very defective. None have been received from the greater part of Southern India. The barometer shows no general change; only small oscillations over limited areas. In the Central Provinces the winds are southerly, and the clouds are on the increase. Local storms, duststorms with slight rain, are reported from the Punjab, the Central Provinces, and Central India. At Bombay heavy rain continues, four-and-a-half inches since yesterday morning. Dacca, Chittagong, Poona, Calicut, and Rangoon, between one and two; Gauhati, under one; Simla, Saugor Island, Sutna, and Nellore, small quantities, above one tenth.

RAINFALL AT POONA.—Table showing actual rainfall gauged at the Sassoon Hospital on the

KHANDALLA MOUNTAIN BATTERY AND SUNDRIES.

(FROM OUR OWN CORRESPONDENT.)

KHANDALLA, JUNE 3.

I AM sorry I spoke. I humbly beg the pardon of the mountain battery's friend (your correspondent of the 30th inst.) I am not particularly given to early rising, but since coming to this mountain-top I have taken to roaming about in the early morning over hill and down dale, and I have limbered up the "highest hill in Khandalla;" but never have I met the enemy. However, this does not go to prove that the battery does not practice; and what was said was by no means intended as a reflection on person, place, or thing. It was only the utterings of the uninitiated and friendless, for "whene'er I take my walks abroad how many guns I see; I never, never talk to them and they never talk to me," so how could I be "invited to Lanowlee" to see the practice? I therefore only see the "mules, not engaged, taking their morning exercise on the Lanowlee road," although seldom on that road myself. As this is not an impossible feat here, I trust I may not be credited with putting forward an enigma.

Poor little mules! I wonder what they have thought of the dissatisfaction we have been undergoing—not the melting-down process that you Bombayites go in for. It is the melting and the pelting of the elements, which have poured down on us terrifically and unceasingly for the last 48 hours, creating almost Egyptian darkness and necessitating the aid of kerosine-oil all day in unfortunate bungalows which are not in possession of glass windows.

A laughable story was related to me to-day, and as it occurred during our storm, it may interest some. A friend was roused out of his sleep by an alarm of snake. A lantern with a small kerosine light was immediately seized, and, as is the usual habit of kerosine lamps, it went out; but the lantern seemed to be all in a blaze, whereupon the two friends in distress forgot the snake and began to blow out, as they thought, the lighted pieces of oil. After a few fruitless attempts they discovered that the flames were fire-flies, which had got inside as well as outside the lantern! The snake, I may as well relieve you by informing you, turned out to be a large insect-looking like a scorpion, covered with whiskers. The fire-flies are simply gorgeous this year, and notwithstanding all the tremendous downpour we have had, they are blazing away as vigorously as ever. I am thankful to relate that once more can we hear the croaking frog and the *skritching* wing and leg of innumerable insects, which means that these mundane things are not being overpowered by Jupiter Pluvius. May we hope for finer weather to-morrow?

INDIAN HOTELS.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—I quite agree with your correspondent "A Wayfarer" that the Bombay hotels need considerable improvement. But I don't know why he pities us at the Ports, as the hotels are unquestionably not only the best in Bombay, but the best in India. I have stopped frequently at Watson's and at other Bombay hotels, and in sundry hotels outside this Presidency, and in Ceylon, and I therefore speak from experience. If Watson's had a lift and a different arrangement of bath-rooms, it would be the best in construction. The proprietor would be wise to see what can be done in these directions. Considerable improvements have been made within the last few years, and it would pay, I think, to do more.

As for the cooking, all that can be said is that it is not so good as that at a private bungalow, nor so bad as that at an ordinary India hotel. I am not able to say why it should not be as good as the former. I am quite certain that it would pay to make it so. I am not so unreasonable as to expect china-ware instead of delf in an Indian hotel; you don't get it in Continental hotels except very exceptionally, and then they make you pay through the nose for the luxury. But a vigorous overhauling of the cookery I should strongly recommend. And if in Watson's, still more is it necessary in other hotels, where the food is for the most part positively injurious to health if one lives on it for any time.

I don't think there is room in Bombay for more hotels. What is required is an amelioration of those now existing. The new management of Watson's is a great advance on what passed for management some years ago, and I am sure the cost of the improvements effected must have been recouped in a few months. The hotel is now nearly always full, which shows that the public knows when it is dealt with in a fairly liberal spirit. This is an encouragement to the proprietor to go on in the same lines and make the chief of the Bombay hotels equal to any in Europe. The rest would have to follow suit or

SHUT UP.

II.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—I am glad you inserted the letter and description to-day about Watson's Hotel. Every Bombayite has an interest in the success of what is, after all, a great Bombay institution. They had recently another very awkward rule in force there, viz., putting out the lights of the dining-room directly after dinner—in fact, before dinner was well over. Your correspondent has pointed out that the ladies' and gentlemen's writing-room is much too small. I have often wondered what ladies do there after dinner. Their writing-room is small and stuffy, and is in fact never used for that reason; but the dining-room is the finest room in the hotel, and is always cool, being, besides, well supplied with punkhas. Surely it would not require great skill to turn a portion of this dining-room (when meals are over) into a sort of lounging-room for ladies and gentlemen, where such as wish to chat together, or play whist, or read, could do so. Gentlemen at present adjourn to the billiard-room. Let the ladies and those who care for ladies' society be able to stay up-stairs in the cool dining-room.

A LATE RESIDENT.

BOMBAY.

VESSELS ARRIVED.—The following vessels arrived yesterday:—Bracadaile (s), from Marseilles; Cathay (s), London.

VESSELS SAILED.—The following vessels sailed yesterday:—Knight of St. Patrick (s), for Hull; Clintonia (s), Antwerp.

PRINCE'S DOCK.—The s. s. Clan Fraser and Avoca entered the dock on Monday, and the s.s. Bretwalda entered yesterday.

A VAGRANT.—Thomas Stevens, a European, was yesterday declared a vagrant by Mr. P. Ryan, and ordered to be sent to the Government Workhouse.

THE ROOKMINIBAI DISPENSARY AT CALLIAN.—During the month of May 470 patients were entered in this charitable institution, whom 402 were new admissions (including 5 in-door patients).

BOMBAY NATIVE DISPENSARY.—The total number of new patients treated during the last month at the head branch of this institution, Dhobitalao, was 1871, the average daily attendance being 280.

REFRACTORY SEAMAN.—John Wilson, articled seaman of the British ship County of Selkrig, was yesterday convicted by Mr. P. Ryan of wilful disobedience in refusing to do duty on board his ship. He was sentenced to two weeks' rigorous imprisonment.

A SWAMY IN BOMBAY.—A grand ceremony took place at the house of Mr. Wassoodev Krishna Mahale in Anunt Rushee's Oart, opposite the bungalow of the Janty Laic Club, on Saturday last, at 6 p. m., on account of the visit of the well-known Swamy of the (Vaisnav) Senoys.

AN OLD OFFENDER.—Shaik Abdool Ebrahim Hoosein, *alias* Ardeseer Merwanjee, was yesterday convicted by Mr. P. Ryan of inducing Pandoo Bhowanee to deliver to him Rs. 3 under false pretences. Being an old offender, he was sentenced to six months' rigorous imprisonment.

ILLEGAL POSSESSION OF OPIUM.—Cumroodin Alkoosha, a Mahomedan labourer, was yesterday convicted by Mr. P. Ryan of illegally having in his possession twenty-and-a-half tolas of opium. He was fined Rs. 7, and the opium was ordered to be confiscated and taken to the Collector of Customs for disposal.

A STRANGE OCCURRENCE.—An artillery-man named J. Coil was reported to have left the Colaba Barracks on Sunday night, at 10 o'clock, with his rifle and twenty rounds of ammunition. Information was at once circulated, and a few hours afterwards the man was discovered by the Barrack Police concealed in a large drain in the lines. He was arrested and kept in confinement in the guard-room.

GORED BY A BUFFALO.—A coroner's inquest was held yesterday at the Goculdas Tejpal Hospital, on the body of Kalia Ameer, a lad about seven years of age, who was gored by a buffalo, on Oyster Bay, on the 31st ultimo, and died from the injuries he sustained. The verdict was that death was caused by fracture of the skull and laceration of the brain by his having been gored by a buffalo whilst pulling it by the tail.

NATIVE REFORMERS.—Mr. Mahadev Moreshwar Kunte is reported to have expressed rather strong language towards the theistic movement in this Presidency in his speech delivered from the platform of the Poona Prarthana Samaj. He seems to have come to the conclusion, and is now of opinion, that the principles of the Samaj are not correct; that our reformers, who wish to educate their ladies and give them more liberty than is allowed, are little better than misguided people who know not what they are about. At present we are not inclined to discuss the question with Mr. Kunte, who has every right to his opinion. But we will say this much—that this sudden change in Mr. Kunte's opinions has been proclaimed by him to the public in a rather objectionable manner. Could not Mr. Kunte find another place for taking the public into his confidence? We can only feel sorry for the indiscreet act, though some people are likely to go further and say that as long as he can get credit for *originality*, which some people might very appropriately call *eccentricity*, Mr. Kunte does not care a rap whether he talks sense or nonsense. But that is a question of detail. Our present purpose is to ask Mr. Kunte whether he was not wrong in expressing his new opinions from the platform of the Prarthana Samaj, well knowing that those opinions were directly antagonistic to the principles and rules of the Samaj. Mr. Kunte might comfort himself with the belief that he has done nothing wrong; but if public morality is not a mere visionary thing, and Mr. Kunte has any respect for it, he ought to know that his conduct is not calculated to reflect credit on himself.—*Subodha Patrika.*

ADDRESSES TO THE QUEEN.

THE following reply has been received by H. H. Aga Shahuddin Shah, Khan Bahadur Honorary Surgeon Shaikh Hyder Cassum, and Mr. R. M. Sayani, to a letter addressed by them, on behalf of the Mahomedan community, to Government:—

"GENTLEMEN,—I am directed to acknowledge receipt of your letter of the 18th May, forwarding for transmission to Her Majesty the Queen and Empress, a congratulatory address from the Mahomedan community of Bombay, on Her Majesty's escape from assassination.

"In reply I am to inform you that the sentiments of loyalty and attachment to the Crown expressed in the address have given great satisfaction to His Excellency the Governor-in-Council, who has caused the address to be forwarded to the Government of India, for submission to Her Majesty through the Secretary of State."

A similar reply has been received by Mr. P. F. Gomes, as representing the Portuguese inhabitants of Bombay, to the address they submitted to Her Majesty, dated the 23rd May.

PASSENGERS BY THE HOMEWARD MAIL.

THE P. and O. Co.'s s. s. Rohilla, Captain W. Barratt, will sail to-day for London, with the European mails and the following passengers:—

FOR LONDON.

H. E. Rear-Admiral W. Gore-Jones.
Capt. R. D. King.
Mr. F. A. Carter.
Mr. A. B. Leslie.
Mr. E. T. Dixon.
Mr. G. Chalmers.
Mr. and Mrs. Clement West and infant.
Mr. C. Tubs.
Mr. F. W. Davis.
Mr. J. M. Drennan.

Mrs. Hoggan.
Miss Hoggan, child, and one infant.

FOR VENICE.

Surgeon-Major H. C. Gillespie.
Mr. G. K. Heinrichs.
Mr. A. Liemann.
Mr. and Mrs. G. Macpherson.
Two gentlemen.
Mr. H. J. Meyers.

FOR ADEN.

Mr. Hari Babajee.
Mrs. Hari Babajee and two children.

The following passages have been engaged:—

The s.s. Kashgar, Captain R. G. Murray, 13th June

For Brindisi.—Mr. H. Le Fanu.

The s. s. Verona, Captain E. Ashdown, 20th June.

FOR VENICE.

Mr. J. F. Stevens.
Mr. G. Jacob.
Miss Clark.

For London.—Mr. John Davies.

FOR BRINDISI.

Capt. C. T. Whitaker.
For Aden.—Lieut. G. R. Tod.
Mr. W. Hudleston.

VALUE OF MILL PROPERTY IN BOMBAY.

TO THE EDITOR OF THE "STATESMAN."

SIR,—We notice an article in your issue of the 19th May, in which you state that it is quite impossible that the People of India S. & W. Company can ever hope to earn the dividend, the prospectus predicts, resulting from the high price paid to the vendors; you also add very emphatically, the cost being so high, it will preclude this Company from ranking among safe companies; and that the ground is not sufficiently large for future extension, and that a Lahore contemporary is in ecstacies at the exceptional arrangements made with the vendors; and you seem to be more surprised at the gentlemen who singed the certificate of the cost of machinery. We now proceed to answer all the queries and relieve your mind of all doubt on the matter; but before doing so, allow us to remark that you are quite ignorant on the subject you wrote about, and certainly not justified in writing in such a manner, without taking an opinion of some expert in mill matters.

The prospectus says clearly and distinctly that this mill is got up specially to spin the lower numbers of yarns, a low count mill. You ought, in fairness to the company and to the public, before you made an analogous with other mills in Calcutta and Bombay, consulted, if you did not know, some expert in mill matters who do know what count mill meant. Had you done this, you would not have made such a blundering and misleading statement; for there is no room for an analogy at all, as far as cost per spindle is concerned, and to say the least of it, by your anxiety to be clever you have certainly done this company a great injustice by your insinuating remarks, and remarks that do not tally with the working of your own mills, when in fact saying you have always pointed out the wide field for the Cotton Industry in India. We do not see how these two statements agree; for had you been anxious to write fairly for the good of this important industry, you certainly would have taken an opinion as to what a low count mill meant. The prospectus distinctly says on average 10s the machinery will take off 10 ozs. per spindle; we ask you fairly and honestly, is there or is there not any analogous here? Well in a word, to procure double and more, the production understand that double the quantity of preparing machinery is required, and all other things in proportion—engine power, boiler power, stores, &c. When you come to analyze all this, you will find this to be cheapest mill ever erected in India. The machinery is also adapted for spinning 20s, the same as the Calcutta and Bombay mills; and if at any time it is resolved that 20s average shall be spun, the cost to the company then of the 10,000 spindles would be about Rs. 26 per spindle; at the present moment, and by the specification sold to the company, there is ample preparing machinery and stores for a mill of 10,000 spindles spinning 20s, same as mills in Calcutta and Bombay. We are repeating mills in Bombay and Calcutta for the purpose of driving it into you, that is no comparison at all. We may also mention that the engine and boiler powers are sufficient for 15,000 spindles, spinning 20s same as Bombay and Cauclitta mills. This extraordinary power required for 5,000 spindles spinning counts ought to be a convincing testimony of the quantity of machinery it has to drive and the power the engine has to exert. In regard to why we sell the concern to a company so soon, that entirely our business, and why doing so is for cash money, we had any profit at all. There are hundreds of circumstances, where concerns have been taken over by companies at a heavy loss to the vendors; and the reasons we sold to the company is, as we said before, reasons of our own, which we do not care to satisfy you with. However, it is sufficient to say we did not sell it to form a company with a view of profit, but for the agency, which we consider will pay us a handsome return for our trouble; and we are sanguine that it will do much more than the prospectus says it will do, even in bad trade, at least that is what we have arrived at with figures now before us. Therefore in justice to the company, and to the public we trust, after you make the necessary inquiries as to the cost of a low count mill of this description, you will unreservedly retract through your paper all you have said in error or ignorance, or anything you like to call it; and on perusual of the following specification of buildings, articles and things of which we can give only a rough sketch here, we hope you will also give the Lahore contemporary credit for knowing apparently more of the subject than you did yourself; hence the reason he was in ecstacies; and that you will also withdraw the imputation, what you object to is the gentleman who put his name to the certificate of machinery; we must insist upon your retracting this without loss of time; for we are in a position to prove that the vendors will drop money by the contract, and this has been put repeatedly to the Board of Directors; so much so that the company has resolved to build its own godown, and as a consequence, and proof, that the concern is a cheap one. One of the largest mill owners in Bombay is amonst our heaviest shareholders and several others in Bombay; and we ask you whether you think men who are thoroughly versed in mill property would invest, in these bad times, if the purchase was not a reasonable one, as you would have the public to believe. The following summary will denote to you what the requirements of a low count mill of 5,000 spindles are, and we ask you openly to give an honest opinion whether they are at a reasonable figure or not. We cannot give a detailed list, as that would occupy all your columns, but any expert will tell you the requirements in proportion to the summary given. We may also point out that a small mill cannot be put up at a corresponding rate with a large mill; a mill of 5,000 spindles spinning low numbers is almost large enough, or 10,000 at most: but we have ample room for 15,000 spindles, spinning low numbers on the company's ground; and a mill of 10,000 spindles spinning average 10s is equal to production of yarns to one of 22,000 spindles spinning 20s. The difference of cost of a small mill as against a large one is about 30 % because the—

Chimney ...	is about the same	
Tank ...	...	do. do.
Skutching house	...	do. do.
Mechanic shop	...	do. do.
Engine and boiler house		do. do.

and many other things, which are required for a small mill would only be required for a mill of 30,000 spindles; therefore there is no comparison in cost.

Specifications for your information.

Main buildings, 300 × 81—Mangalore tiles—roof and plastered—floor pavement.

Engine house ...	56 × 20
Boiler do. ...	56 × 30
Tank ...	100 × 100 × 20
Brick chimney ...	6 inside × 100.
Press house ...	50 × 70.

Engines rope driving 2 boilers 25 × 6½ galloway to work at 100lb.

5,000 mules.

25 carding engines, 40 × 30.

1,120 spindles, roving, drawings, slubbings, &c. to suit shafting pulleys, throughout the whole of the mill.

Stores complete for a mill of 11,000 spindles, spinning 20s—all machinery loose boss; all long collars.

Change wheels to spin from 0s. to 20s.

Mechanic shop with full complement of tools

Blacksmith's Shop ... do. do. do.

Skutching house complete for 15,000 spindles, spinning 20s.

After perusal and valuation of all this we fancy you must be sorry for what you said, for your article is certainly an injustice to fair and honest enterprise.

J. SCOTT & CO.

P. S.—You will find a Calcutta mill of 30,000 spindles will have

It does not sound well for Bombay to harp so constantly upon its importance and its own greatness. It is a nice city enough, and it has a very fair trade; but after all it is only Bombay.—*Indian Daily News.*

MADRAS.

THEFT FROM A NEWSPAPER OFFICE.—On Thursday night some person or persons entered the *Madras Times* Office, broke open the cash chest, and stole about Rs. 260 in silver. The matter is now being investigated.—*Madras Mail.*

SACRILEGE.—A week ago the Rev. Mr. Hobart, of St. Mathias' Church, Vepery, reported to the Police Inspector of G. Division the theft of a currency note and cash, in all amounting to Rs. 29, which had been placed on a table in the vestry of the Church. Mr. Fitzgerald, the Inspector, who has been trying to trace the offender, this morning arrested a girl named Lizzie Webb, residing in Pursewaukum, who confessed her guilt, and said that she purchased wearing apparel with the money. The accused will be brought up before the magistrate on Monday.—*Madras Mail.*

N.-W. PROVINCES, PUNJAB, AND OUDH.

THE LATE MAHARAJA OF BULRAMPORE.—The following notification appears in the *North-Western Provinces Government Gazette*:—The Lieutenant-Governor and Chief Commissioner has heard with the deepest regret of the death of Maharaja Sir Digbijai Singh, K.C.S.I., of Balrampur, Tulsipur, and Charda. The distinguished services rendered by the Maharaja to the British Government during the mutinies of 1857 were recognised by titles and grants of lands; and his rank, large possessions and acknowledged influence placed him first, by universal consent, among the Nobles of Oudh. During the twenty-five years that have since passed, his sagacity, experience, and ability enabled him to give most valuable aid and advice to the Government of the country, both in the Council of the Viceroy and in the administration of the province which he especially represented. But in no way did he render to the country higher or more beneficial services than by the excellent example which he gave of liberal and enlightened management of vast estates, of generosity to his tenantry, and wise and prudent disposals of his ample fortune. His Excellency the Viceroy and Governor-General has conveyed to the Maharaja's family an expression of the great regret with which he received the intelligence of His Highness's decease; and the feeling will be widely shared by all classes to whom the Maharaja was known and by whom he was universally respected.

NOTICES.

JOSEPH GILLOTT'S STEEL PENS.

H. H. THE NIZAM'S STATE RAILWAY.

ADVERTISING AT RAILWAY STATIONS.

THE PROPRIETOR of the *Bombay Gazette* Press, having leased from the NIZAM'S STATE RAILWAY Company the exclusive right of advertising at all the Railway Stations belonging to the Company, is prepared to contract with parties desirous of posting notices or advertisements on the lines.

The Cantonment of SECUNDRABAD, as is well-known, contains the largest military garrison in India—a garrison comprising over 5,000 British and native troops. Contiguous to it is the Cantonment of BOLARUM garrisoned by two regiments and one Battery of the Hydrabad Contingent, all officered by Europeans. South of Secundrabad, about 4 miles, are the suburbs of Hydrabad, containing the Nizam's regular troops, about 5,000 in number, officered mostly by Europeans—besides a large civil population. It would manifestly be advantageous to firms to advertise at the stations on the above railway, the most important of which are SECUNDRABAD, HYDRABAD, GANGAWARUM and TANDUR.

The announcements may be in English or in any of the NATIVE LANGUAGES.

The advantages which Railway Stations present as a means of bringing intimations of all kinds before the public have been demonstrated in England by the extensive use which is made by Advertisers, of every station, great and small, along every one in the United Kingdom.

INSURANCE COMPANIES, SHIPPING COMPANIES HOTELKEEPERS, MERCHANTS, TRADERS and others who wish to force their business on the notice of the public, all alike value the privilege of *Railway Station Advertising.*

There is no reason why the privilege should not be also specially valuable to Advertisers in India. Looking to the great and increasing number of Native Railway Passengers on the two trunk lines of Western India, Native Merchants, Traders, &c., seeing that they have the privilege of advertising in their own language, would find the publication of their announcements at Railway Stations an infallible means of extending their business.

Advertisers can select the Stations, at which they wish their Placards posted, and may advertise for any period that may be agreed on. The charges have been fixed on an extremely *moderate scale* to encourage Advertisers to make a liberal use of the new means now offered of making announcements known to the public.

Placards, according to the taste of Advertisers may be printed at moderate charges in ENGLISH or any of the NATIVE LANGUAGES at the *Bombay Gazette* Press. Estimates on application.

RATES.

Boards not exceeding 2 feet long and 2 feet broad Rs. 2 per month. For every additional square foot annas 8.

Thus a firm exhibiting a board, say 4 square feet will have the advantage of having their business advertisement read by thousands of Passengers on one station platform for the trifling monthly expenditure of Rs. 2. Parties advertising on six Stations or more will be allowed a discount of ten per cent.; on twelve Stations or more twenty-five per cent.

The boards to be delivered at the *Bombay Gazette* Office, whence they will be sent by the Lessee to the curious stations selected by the Advertiser. In the event of the contract terminating, the boards will be brought back to Bombay at the expense and risk of the Advertiser.

Special arrangements for long periods.

For further particulars apply to the Manager *Bombay Gazette* Office, Rampart Row, Fort.

NOTICES.

SULPHOLINE LOTION.—An External Means of CURING SKIN DISEASES. There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferers for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcules which cause these unsightly, irritable, painful affections, and always produces a clear, healthy, natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d. Made by J. PEPPER and Co., London. Sold by TREACHER and Co.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health, For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depres, tion, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections and in wasting disease, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by Chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition. Sold by TREACHER & Co.

TARAXACUM and PODOPHYLLIN—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, headache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

LOCKYER'S SULPHUR HAIR-RESTORER will darken grey hair, and in a few days completely bring back the natural colour. The effect is superior to that produced by an instantaneous dye, and does not injure the skin.

LOCKYER'S SULPHUR HAIR-RESTORER is the best for restoring grey hair to its former colour. It produces a perfectly natural shade, and is absolutely harmless. Recommended for destroying scurf and encouraging growth of new hair.

LIVER COMPLAINTS.

DR. KING'S DANDELION and QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

sold by Chemists and Medicine Vendors throughout the world, Prepared by Jas. Rorke, London.

Specially valuable Pills for residents abroad and traveller.

PATENT WROUGHT NAILS.

J. J. CORDES & Co.,

The Patentees and Sole Manufacturers of the well-known Patent Wrought Nails, commonly known as

"EWBANK'S NAILS,"

Desire to make it known that a "STAR" or "CROSS" is their Trade Mark, and that all Nails made and sent out by them, except clasp, bear this mark upon their heads, and that within every Package sent from their works is also placed a card bearing their Name and Address.

Any Nails, therefore, which are not distinguished as above, must not be confounded with

"EWBANK'S NAILS,"

the quality of which is so well appreciated as being far superior to that of any other make.

DOS WORKS, NEWPORT, MONMOUTHSHIRE, ENGLAND.

ADVERTISING AT RAILWAY STATIONS.

THE Proprietor of the "BOMBAY GAZETTE" Press having leased from the *GREAT INDIAN PENINSULA RAILWAY COMPANY* and the *BOMBAY, BARODA AND CENTRAL INDIA RAILWAY COMPANY*, the exclusive right of advertising at all the Railway Stations belonging to these two Companies, is prepared to contract with parties desirous of posting Notices of Advertisements on the lines.

The announcements may be in English or in any of the Native Languages.

The advantages which Railway Stations present as a means of bringing intimations of all kinds before the public have been demonstrated in England by the extensive use which is made by Advertisers, of every station, great and small, along every one in the United Kingdom.

INSURANCE COMPANIES, SHIPPING COMPANIES HOTEL-KEEPERS, MERCHANTS, TRADERS and others who wish to force their business on the notice of the public, all alike value the privilege of Railway Station Advertising.

There is no reason why the privilege should not be also specially valuable to Advertisers in India. Looking to the great and inceasing number of Native Railway Passengers on the two trunk lines of Western India, Native Merchants, Traders, &c., seeing that they have the privilege of advertising in their own language, would find the publication of their announcements at Railway Stations an infallible means of extending their business.

And as nearly ALL TRAVELLERS ARRIVING IN INDIA NOW LAND AT BOMBAY and proceed by the G. I. P. or B. B. and C. I. Railways to their destinations, Placards exhibited at the different stations on those lines are every day becoming more and more valuable as means of bringing the Advertisers business to the notice of the public.

Advertisers can select the stations, on either line, at which they wish their Placards posted, and may advertise for any period that may be agreed on. The charges have been fixed on an extremely moderate scale to encourage Advertisers to make a liberal use of the new means now offered of making announcements known to the public.

Placards, according to the taste of Advertisers may be printed at moderate charges in English or any of the Native languages at the "BOMBAY GAZETTE" Press. Estimates on application.

RATES.

Boards not exceeding 2 feet long and 2 feet broad Rs. 2 per month. For every additional square foot annas 8.

Thus a firm exhibiting a board, say 4 square feet will have the advantage of having their business Advertisement read by thousands of passengers on one station platform for the trifling monthly expenditure of Rs. 2. Parties advertising on six stations or more will be allowed a discount of ten per cent.; on twelve stations or more twenty-five per cent.

The boards to be delivered at the "BOMBAY GAZETTE" OFFICE, whence they will be sent by the Lessee to the various stations selected by the Advertiser. In the event of the contract terminating, the boards will be brought back to Bombay at the expense and risk of the Advertiser.

Special arrangements for long periods.

For further particulars apply to THE MANAGER, "BOMBAY GAZETTE" OFFICE, Rampart Row, Fort

SNOW-VIEW TEA GARDEN PALAMPUR P. O. KANGRA VALLEY.

THE Proprietors of the Snow-View Tea Garden have determined to offer their Teas to the public direct from the Factory, thereby assuring to their constituents an unadulterated and UNMIXED article, and eliminating from the price of the Tea the Middleman's profits, which range from 40 to 100 per cent. They offer their produce at ORDINARY FACTORY QUOTATIONS for CASH WITH ORDER only.

They guarantee their Teas to be
